Example of expedition with one journey. This shows when tasks may be started and completed.

TASK	TIMELINE											3 Months
	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	Week 12
Team Standardization												
Project Forecasting												
Experience Task Iteration												
Business Object Modeling												
Understanding Current Ecosystem												
Exploring Current Ecosystem Possiblities												
Journey Map Creation												
Journey Map Analysis												
Featuring												
Existing Solution Discovery												
Existing Solution Analysis												
Proof Of Concepts												
Project Roadmapping												
Strategy Hypotheses Deliverable(s)												

Example of ongoing maintenance for expedition. Once a task is started, the artifacts produced will be continuously iterated on as new information is learned and project goals are adjusted.

TASK	TIMELINE											3 Months
